I think this is a big game, those who say it's a copy of the raft, but I still like it, it's for your mobile phone, so I can play my favorite game on your phone since I don't have a computer and I'm not on my console, great game, don't buy anything, I don't like having to work to become creative, it's not worth it, even to answer the answer I got from the creator, you're saying all consumers of the shells / gems must contact The Apple Store support? Because I read around twenty reviews of people who are scammed, and having to grind for hours to be creative, but not a single review I have read said "great game, I bought gems to get the creative mode and I love it!" But here is an example of what I read "I was scammed, I bought gems / shells and I didn't take them, besides this fantastic game!" And I agree good game but I don't even worry about looking at the store. The Creator could have cheated all of us, or maybe it's a bug, who knows, just saying, I'm not saying not to download it, do it, but I don't do it, I don't waste money on the gems / shells if you have problems with the purchase, I You must contact the App Store support. Most likely your purchase hasn't passed.
