Welcome to the replica of the Summer Servant Festival! Join Jeanne d'Arc (Berserker Alter) once again in Endless Eight FGO Edition, aka her epic quest to exceed deadlines. There are three event currencies () and three event points () to use for this event. The main progress of the search is closed with total event points collected. During the replica, the rates of drop in free demand for Shop and Point currencies have slightly increased, and the Servant Point Bonus has also been increased by +10% across the board, making the event slightly easier to cultivate. This event follows a seven-day cycle with "Noon" / "Night" phases. The general flow of this event is as follows: Day 1: Noon Main Quest, if applicable, time of application of Noon Free Quest (any 1x Quest) night time of search (any 1x Quest) main night, if applicable, day 2-6: Repeat as above. Day 7: This is a special day of publication without free questions. The time cycle will begin from day one after completing a Public Research / Main Questions. Each main Search has a specific day and time that appears, some of which also require a certain number of total event points to reach on that day and time for the search to appear. Free questions must be asked to force time to pass. Note that Extra Quest (such as those that assign command codes, costumes, etc.) cannot be used to spend the latter's free time, as they will only appear during the main Quest slot time. The passages below are divided into two sections: the main passage of Quest and the free passage. This was done because © The main questions are largely static, while the progress of free Quest and agriculture depends heavily on the staff of each Master and on how much Event Bonus they are able to achieve using their servants or CEs. The general recommendations will be valid for all Masters, even if the exact number of courses in the Free Quest section will depend on their training. Try before buying the Event Shop EC (); The Free Quest passage shows a strategy that tries to buy CEs quickly, maximising the points of profit. When you first grow Free Quest, the lowest AP Free Quest difficulty can be skipped and left for later, as the main questions will require enough points from a certain day/time to advance. If the point requirement is not met in time, then Free Quest must be repeated for the advance time until it returns to the deadline. In order to avoid having to add additional times before completing the main questionnaire, it is recommended that the requirements of the ASAP points be met. Note: The Raids in Part Two of the event will provide 36k BASE points for all three types of Doujin Point (all four Raids combined if completed)! With a bonus +200%, this will be at least 100k points of all three types, so no over-farm points before Part 2 Raids! Make sure you bring Event Bonus Servants! They will help increase the drops of all kinds of points. Bring all the bonuses that are convenient for compensation missions. Part 1: Questions pre-point 35; Question Day Notes Event Drops 1 Prologue N/A Story solo. No 2 S1: Six days to ServantFes-1 N/A A single Berserker crowd (54k HP). No 3 S1: Six days to ServantFes-2 N/A Two waves of Saber Mafia (x1Farm until you purchase CE. At the beginning, skipping the lower difficulty questions is preferable because of a limited number of free questions that can be performed between each section of the Main Search. Low AP research can be done later for clear rewards. For second-time Masters, it may be useful to buy the CEs Shop again (especially if previous copies were MLB so that fewer copies are available). The point requirement to clean the scale is very high, and being able to stack more bonus points is useful Clean the scale faster (and allows more EC space for EC gacha). "Crunch Time Goal: x200> x1Farm until CE can be purchased. Crunch Time Goal: x200 > x1 (352)Farm until the purchase of the EC. Crunch Time Goal: x200 > x1 (35,3)Farm until the purchase of the EC. Note: You can reach this step before Koko Head opens (especially for the 2nd-timers with higher drop bonuses). In this case, you can return to Waikiki Street to purchase the third copy of Water Shine (step 10) before returning to this step. Koko Head opens after completing the first loop. Farming up to EC obtained from the point scale. Koko Head Crunch Time Goal: x200> x1Farm until you buy the EC. *2nd*2nd*2nd* Cross Time Goal: x200 > x1 (35,3)Farm until the purchase of the EC. Sandbar Crunch Time Goal: x100k >x1 (35,4)Farm to EC obtained from the score scale. Diamond Head Crunch Time Goal: x100k >x1 (35,4)Farm up to EC obtained from the score scale. Part Two: Reach points 800k 35; This Description Drops Recommended Bonus 13 Waiki Beach Crunch Time Goal: Clean up other Free Quest difficulties for Golden Fruit. Once free for the golden fruit. Crunch Time Clear once for Golden Fruit. Crunch Time Clear once for Golden Fruit. Hilo Crunch Time Clear once for Golden Fruit. Hilo- Crunch Time Goal: Total x800k> The main questions unlock all questions have similar drop rates, so that research with the most favorable material drops/ currency of the store can be given priority. A popular point is Hilo, as does the Heart of the Foreign God, even if the Masters can choose to cultivate a different node. A complete list of questions and drops can be found in the Free Quest al-A-Glance table. During this section, it is also very likely that at least an extra (purple) search will appear. These provide limited time elements and occur after reaching the required point thresholds. A list of requirements for all extra Quest can be found [Here]. Part Three: Cleaning up for all free questions 35; THIS Description Drops Recommended Bonus 18 Honolulu Airport --Laid Back Goal:Clear upper First Time Rewards. After having reached the 800k points, returning to cleaning the lower free AP questions once each time for the fruits is a good idea. Also the search for the Bronze Fruit (10AP) can be done as the return of the Bronze Fruit (10AP), making the first race essentially half-AP cost. Note: The Raids in Part Two of the event will provide 36k BASE points for all three types of Doujin Point! With a bonus +200%, this will be at least 100k points of all three types, so no over-farm points before Part 2 Raids! Once at Honolulu Airport Steady Run. Honolulu Airport High Spirits Run once. Diamond Head Steady Run once. Diamond High Spirits Run once. Laid Back Run once. A Steady Run once. High Spirits Run one time. Laid Back Run one time. Steady Run once. I don't know. Head - High Spirits Run once. Laid Back Run Run One Hilo Steady Run once. Hilo High Spirits Run once. Sandbar High Spirits Run once. Mauna Loa Crunch Time Shlocks after the main questions Part One (Sequel) free; Eight days in the event. Once free for the golden fruit. What is it? Mauna Kea Crunch Time Clear once for Golden Fruit. What is it? Kilauea Volcano Crunch Time Clear once for Golden Fruit. At this point, agriculture can be done in a place of choice, preferably carrying the currency reduction bonus with the support. The general rule is: Farm Bill type at a time (easier and more effective for a pile of single drop bonuses) Aim for the nodes that fall also a type of point that is still necessary. There are nine nodes, with combinations of each currency and each type of point, so that we can find a suitable agricultural area for all cases. Check the free questions on a Glance table for a complete list. Note: If you are shorter on points than on currency, the last three nodes that open after part 1 (Mauna Loa, Mauna Kea, Kilauea Volcano) are 33% better for Points, and are also technically better for currency unless you use the CE bonuses in a single currency. Class event Servants Event Bonus +40% +50% +30% +30% +5% (Party) +20% If only going for Max Ascension, NP5 Jeanne d'Arc (Berserker Alter), No. Otherwise, depends on the event bonus Servants and CEs available, and how much of the store/point scale is desired. Natural Regen AP will be about 4847 AP during the event. Only NP5/Max Ascend Jeanne d'Arc (Berserker Alter), this requires the compensation of the main search line. Assuming you do not use gacha, it will cost at least 3065 AP (depending on the luck of drop). Includes Extra Search for all command codes and costumes, this will be an extra 40 AP, to 3125 Total AP. This is slightly improved by the initial race, due to slightly higher drop rates. The AP cost can be improved with more Event Bonus Servants, and if EC copies from the original race are available first. For a complete point and free event shop at the top of the above, with the same conditions of no-gacha, you need an additional 4200 AP, for a total of 7325. Eliminating the event store tends to be more limiting than cleaning the Point scale for most (which may have access to the Summer Services from previous years, Event Bonus Support, etc.), unless a Gacha EC surplus is available. Therefore, performing with a support that has currency exchange bonuses is preferable to the point bonus. Assumptions for the above (use "Gacha's first worst-case scenario without luck", AP reduced if more bonus is available): Up to +130%: From Bonus Servants (Mash, Robin Hood, Jeanne d'Arc temporary (Berserker Alter), and previous support for summer wellbeing or Friend with +30%or higher) + Shop EC equipment when available for the first time. Up to +1: From Non MLB Friend Support or. Up to +1: From Non MLB Friend Support or. Up to +2: From a free copy of the search and a friendly support not MLB or.
