## The little prince book pdf in french

The Little Prince was first published in French on April 6, 1943 by Reynal & Hitchcock, a now defunct publishing housed based in New York City. At the time, Antoine de Saint-Exupéry, France's renowned literary pilot, was preparing to leave the city where he had lived in exile since January 1941. This exile, the distance the war forced between him and those he loved, tormented him and he lamented living in New York "when my people are dying and suffering from the war." This little book, published abroad, would take on a life of its own and become the most widely read and widely translated in the French language. Today, The Little Prince is available in some 260 languages and dialects, including braille. Saint-Exupéry, whose *Wind, Sand & Stars* received the 1939 National Book Award for nonfiction, would never know the true extent of success garnered by this slim, illustrated volume. It is a philosophical and poetic tale that describes the beauty of childhood, imagination, curiosity, loyalty and wonder. In honor of the 70th anniversary of the publication of *The Little Prince*, The Saint-Exupéry Estate, along with publishers Gallimard (France) and Houghton Mifflin Harcourt (HMH Books USA), The Morgan Library & Museum and other partners are planning book launches, exhibitions, contests, and other exciting events. Both publishers are releasing special 70th Anniversary Deluxe Editions of *The Little Prince*, including enhanced original full-color illustrations, audio components, commentary, new biographies of Saint-Exupéry, and more. Who? It is not that I have something against that beautiful book — it is not my favourite french classic and certainly not the best! — and if you absolutely want to read it, go on, give it a try. (You can start off by listening to this playlist) Here is the truth: First, many French people didn't read *Le Petit Prince* — or other classics by the way — even if they praise it and would fight tooth and nail for it! Most of the time, they just studied some extracts at school. Only two categories of people would read the entire books: the motivated ones those interested by literary studies. Second, you have to know that even natives may have difficulties to understand *Le Petit Prince* because it is complex since it is about imagination and poetry! Thus it is absolutely normal if you face the same difficulties. One has to be really advanced in the language to understand the implicit, etc. Also, thinking about it, french literature is not set in stone: there are so much treasures to discover and promote... For example, did you know that Simone de Saint-Exupéry, Antoine' sister, was also a writer? She was older than him and when he started to be famous, he didn't want another writer in the family (!). Despite that, she was a dedicated sister since she protected her brother's work until the end of her life in 1978. Their descendants, reporting they didn't know why she didn't do it herself, published her uncompleted but interesting childhood memories book, *Cinq enfants dans un parc*, to commemorate the centenary of the birth of her brother in 2000. I really want to pay tribute here to unknown or lesser-known authors like Simone de Saint-Exupéry who was not just "Antoine de Saint-Exupéry's sister", but a person, a woman and a writer in her own right. People like her make me reflect a lot on what is — or not — considered as major books and authors "you have to know"... Anyway, there are so much great books to read out there so make your own way! This being said, you will find below some reading advice if it can help: 1) Read books in french that you have already read in your language Since you know the story, it will help you (and you can find bilingual versions if you want to start slowly). 2) Read french versions of "must-read" books from all over the world For example, read again Anne Frank's diary, *Le Journal d'Ann Frank*, in a french graphic version. You can also find french versions of short writing style books like *Le manuel du Guerrier de la Lumière* by Paulo Coelho. If you feel ready for more, check the french versions of 1984 by George Orwell, *La chambre solitaire* by Shin Kyong-Suk () or *Les Délices de Tokyo* by Durian Sukegawa. 3) Read books in french about topics you are interested in If you like travel writing, go at *Librairie Grangier* downtown Dijon — it is the biggest bookshop around — and flick through the "récits de voyage" area! If you are more into crime novel, try *Le Mystère de la Chambre jaune*, a classic by Gaston Leroux. \* Yes, it is a version for teenagers but who cares? You will find useful annotations If you are a soccer fan, check out this book + CD: *La fabuleuse aventure des Bleus (A2)*. It is about the french team who won the World Cup in 2018. And for more suggestions depending on your level in french, check out this page! 4) Read classic (or not!) books in french • Classics especially dedicated to learners of french (teenagers and adults): for example, *Le Tour du monde en 80 jours* + CD (A2) by Jules Verne • Classics published in bilingual versions: check out this page • Short texts: for example an engaged essay, *Indignez-vous !* by Stéphane Hessel (30 pages), an outstanding french diplomat, resistant, writer and activist who addressed a beautiful message to the french people in 2010 (3 years before his death) about what they fought for in the past and shouldn't forget. You also have *La préférence nationale* and other short stories, first book by Fatou Diome who shared her experience of immigration in France with a unique and brilliant style. • Comics to relax (but also learn thanks to the images! ): you can find lots of classics adapted into comics and if you are a comics books fan, you have to know all about Franco-Belgian comics! Here is a selection that people from all ages love to read again and again: *Le Petit Nicolas*, by Sempé-Goscinny (also without images here), *Cédric* (Cauvin/Laudec/Dupuis), *Boule et Bill* (Roba Jean/Dupuis), *Gaston Lagaffe* (Franquin/Dupuis) ¶, etc. "There is black ice" • For more, check out Sam's Book Club You have an opinion about a book from this list (or not!)?
