From start to finish a great movie, it has great chemistry between the characters and the robots, with an awesome storyline that really makes you think. There are several minor blips and mistakes I noticed, but they do not take away from movie at all. I would say it is slightly better than the first film and a lot better than the second one. Like Michael Bay said the film could go bigger than the second so bringing it back into a small arena was an added bonus. the 3D was also a nice addition to the movie added to the immersing experience. Nonetheless I am a fan of the trilogy and plan on seeing it again. I recommend anyone who is a fan of explosions, non stop action, and comedy to see this film, maybe even twice!!!
