Looking forward to seeing everyone at the meeting tomorrow and discussing our strategies, whether you're working with existing lesson plans, creating your own material or activating AI - you'll be in charge of what's best for your teaching style. You'll activate your prior knowledge, keep every student engaged and see who needs a little extra help. Teachers, LessonUp is there to show you exactly how it works. Give direct feedback and use the reportages to make your next lesson even better. Bringing lessons to life and letting students grow - that's what it's all about: Dynamically teaching - adding activating work with hotspots, spinners and videos. De LessonUp library - get inspired by other teachers and give it your own twist. Interactive elements - get your students involved with quizzes, word webs, spinners and polls. Just select your sign-in method and pick up where you left off. Log in to your account to create interactive lessons, teach online and share assignments. Log in to your student account to join your teacher's lessons and complete assignments. Continue as student. Some students speak up. Others hold back. As a teacher, one of your main goals is to reach every student and keep them curious, engaged and learning. LessonUp helps you do just that. With interactive features like quiz questions, open questions, mind maps, drag-and-drop tasks, spinners, hotspots and more, you create space for every learner to contribute in their own way. Every interaction is captured digitally, so you can see how students are understanding without putting hesitant students on the spot. You're not alone - if you're unsure about any feature, check out our how-to videos. Our free online LessonUp library offers thousands of lessons, created by teachers like you. So if for any reason you don't feel like creating your own lesson or upgrading your PowerPoints, feel free to teach any of the thousands of customisable lessons in our library. Just click on a lesson, save it in your LessonUp editor environment and customise it to fit your subject, cohort and teaching style. We believe education always comes first. That's why our team of education specialists - all current or former teachers - offer practical webinars on how to use our platform, alongside sessions focused on pedagogy and learning techniques. We also offer interesting CPD sessions and papers: from metacognition to critical thinking, from active learning to formative assessment! In our website you'll find a variety of free resources to support your teaching and CPD sessions. Join LessonUp Looking forward to seeing everyone at the meeting tomorrow and discussing our strategies in class straight away! Register for FREE! More about LessonUp Log in op de manier waarop je gewend bent en ga verder waar je gelieven bent. Nog geen account? Register Would you like to see lessons which are made by teachers from your country? Looking for interactive lesson materials? Browse ideas for online lessons from other educators. Great to see you're getting started with LessonUp! Are you an educator or a student? Create digital and interactive lessons. Find lesson materials in our lesson library. Teach lessons on- or offline. Share lessons, homework and tests with your students. Share lessons with your colleagues. Use your device to join in on lessons from your teacher. Enter a class code and join your class. Complete assignments or tests provided by your teacher. Continue as student. LessonUp helps you reach and engage every student. On this page, discover the WHAT, WHY and HOW of our teaching platform: why teachers trust it, how to get started, and what you can do. LessonUp is an online teaching platform where you can find, create, and teach interactive lessons both in-person and online, while gaining valuable insights into student learning. The real magic takes place while you are teaching. This is where LessonUp supports you in connecting and engaging with your students. Having only one screen open eliminates the hassle of switching between platforms. Our interactive features cover all phases of a lesson: from activating prior knowledge, to explaining a new topic in different ways, to assessing students' understanding. This data serves as readily accessible evidence, deepening your understanding of each student's needs. LessonUp has been game-changing in the classroom, especially with regards to assessment for learning. We can check that we have 100% participation. Lead Teacher of Enterprise, Nottingham University of Samworth Academy. Some students speak up. Others hold back. As a teacher, one of your goals is to reach every student and keep them curious, engaged, and learning. LessonUp helps you do just that. With interactive features like quizzes, open questions, mind maps, or polls, you create space for every learner to contribute in their own way. Each interaction is captured digitally, giving you insights and feedback into understanding and classroom dynamics without putting hesitant students on the spot. You can upload your PowerPoint lessons, and make them highly interactive and engaging. We now offer optional AI tools to create pedagogically-structured lesson suggestions, quizzes tailored to your lesson or slides, glossaries, or copyright-free images. Don't forget to browse our library, filled with lessons made by other teachers. A remarkable benefit of LessonUp is its automatic preservation of formative assessment data. These insights are securely stored within the platform, after each assignment (results are saved in both our free and paid versions) and in the student reports, which can be accessed with a Pro or School subscription. These detailed reports offer clear insights, so you can spot misconceptions early on. All data is securely stored in one GDPR-compliant environment, helping you monitor progress and support growth. We offer a free version of our platform, which is available for everybody. It includes some interactive features to engage your students, and encourage an inclusive classroom. Just click the 'Register' button to start. No payment details are required, and for 30 full days you will have free access to our Pro subscription. After that, your account will be automatically switched to a free subscription, which still gives you access to some great features. For more information on our subscription types, check our subscription overview. Whether you're new to LessonUp or already experienced, the LessonUp Academy offers clear, step-by-step guidance. Beginner - Learn the basics and create your first interactive lesson. Advanced - Deepen your skills with digital assessment and adaptive teaching. Expert - Explore gamification, formative assessment, and student portfolios. Start where you feel most comfortable, and take your digital teaching to the next level. We believe education always comes first. That's why our team of education specialists - all current or former teachers - offer practical webinars on how to use our platform, alongside sessions focused on pedagogy and learning techniques. We offer interesting CPD sessions and papers: from metacognition to critical thinking, from active learning to formative assessment! In our website you'll find a variety of free resources to support your teaching and your school's CPD sessions. Do you have a whole library of PowerPoint lessons? They are the perfect base to create more engaging, interactive lessons with LessonUp is an online teaching platform that caters specifically to teachers' needs. Just upload your existing PowerPoint presentation, and then add quizzes, mind maps, videos or any other interactive features in a few clicks. It's done. You do. That's why our tool was designed to support you. LessonUp's unique approach to art education combines engaging interactive lessons, teaching resources, and a user-friendly interface, enabling teachers to streamline their workflow while promoting critical thinking and empathy in young students.
